

## IEEE Education Week Social Posts 2023

[IEEE Education Week](#) is a weeklong celebration of educational opportunities provided by the world's largest technical professional association and its organizational units, societies and councils.

IEEE offers pre-university STEM, university, and continuing professional education resources for engineers and technical professionals all over the globe! From local and regional activities, to webinars and online courses, to scholarships and events, and so much more, there are numerous educational resources available. We invite you to discover the many educational opportunities and resources available.

### Twitter Post 1
